

A coastal scene with waves crashing against rocks and seaweed in the foreground. The sky is overcast and the water is a mix of white foam and dark blue-grey. The foreground is dominated by large, dark rocks covered in green seaweed and brown kelp. The text "FUTURE PRIMITIVE" is centered in a large, white, serif font, and "SPRING / SUMMER COLLECTION 2021" is centered below it in a smaller, white, sans-serif font.

SPRING / SUMMER COLLECTION 2021

Future Primitive is a sustainable fashion brand committed to an ethical approach towards sourcing, manufacturing and designing clothes produced by local artisans in Jaipur, India. Founded in 2019 by Jenna Nankin the brand approaches fashion with an effortless gaze toward femininity. The clothes are designed for comfort and handmade from pure woven fabrics.

Inspired by Lydia Delectorskaya, the Russian model and collaborator of Henri Matisse, our Spring Summer 2021 collection draws upon graphic prints, puff sleeves, and long dresses in radiant colors reminiscent of the artist's rich unmodulated palette accentuated by the use of black.

The wardrobe is a collection of shirts made of hand spun cotton muslin and ahimsa silk, block-printed smock dresses in the softest organic cotton and waist-flattering pants in thread dyed indigo. The styles are intentionally designed to flatter a variety of figures. The clothes are easy-care, hand or machine washable.

Future Primitive is sold in select boutiques in USA and online at
